2	Progress Review	Weekly	GitHub, Project Report	Sanjana	Review completed modules and verify project milestones.
3	Bug Fixing & Testing	As Needed	VS Code, Flask Terminal	Sanjana	Identify and fix coding and prediction issues.
4	Guide Discussion	As Needed	College Mentor / Email / WhatsApp	Sanjana & Guide	Clarify doubts and receive project guidance.
5	Final Demo Preparation	Once	PowerPoint & Web Application	Sanjana	Prepare for the project demonstration.
6	Documentation Review	Before Submission	Microsoft Word, GitHub	Sanjana	Verify documentation and final project files.

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Difficulty in collecting and understanding project requirements and relevant datasets.	Studied the requirements, searched multiple sources, cleaned the data, and verified feature values before model training.
2	Errors while integrating the Flask application with the Machine Learning model.	Debugged the code, corrected file paths, and tested predictions until the application worked correctly.
3	Time management while completing coding and documentation alone.	Followed a daily schedule and completed the project phase by phase before submission.
